

PORTFOLIO

Hello I am
Hamza

I'M A DESIGNER & VIDEO EDITOR

Who am I HELLO

I'm Hamza Serhane. I was born in Sefrou and raised in Errachidia.

I am a creative designer and video editor. I was in love with art since my childhood and when I discovered internet I got into reading blogs and watching videos about design and video editing and most importantly special effects, even if I didn't have a computer that is able to handle it back then .

I also take interest in cars, bikes and music, I tried to get into music production and later on I knew that's not what I was brought to the world to do. So that's why I began to learn Adobe Photoshop, and it was the portal that got me into the world of design.

Apart from design and video editing, I am touched by photography and modeling as well. And it is something I am trying to do as much as I can in this time of my life, I publish professional and high quality photos on Instagram.

VIDEO EDITING

This was a boring green screen clip, then reworked with **Adobe After Effects** replacing the background with a dynamic moving scene

PROJECT Link

<https://www.youtube.com/watch?v=GdQuGRq8IWQ>

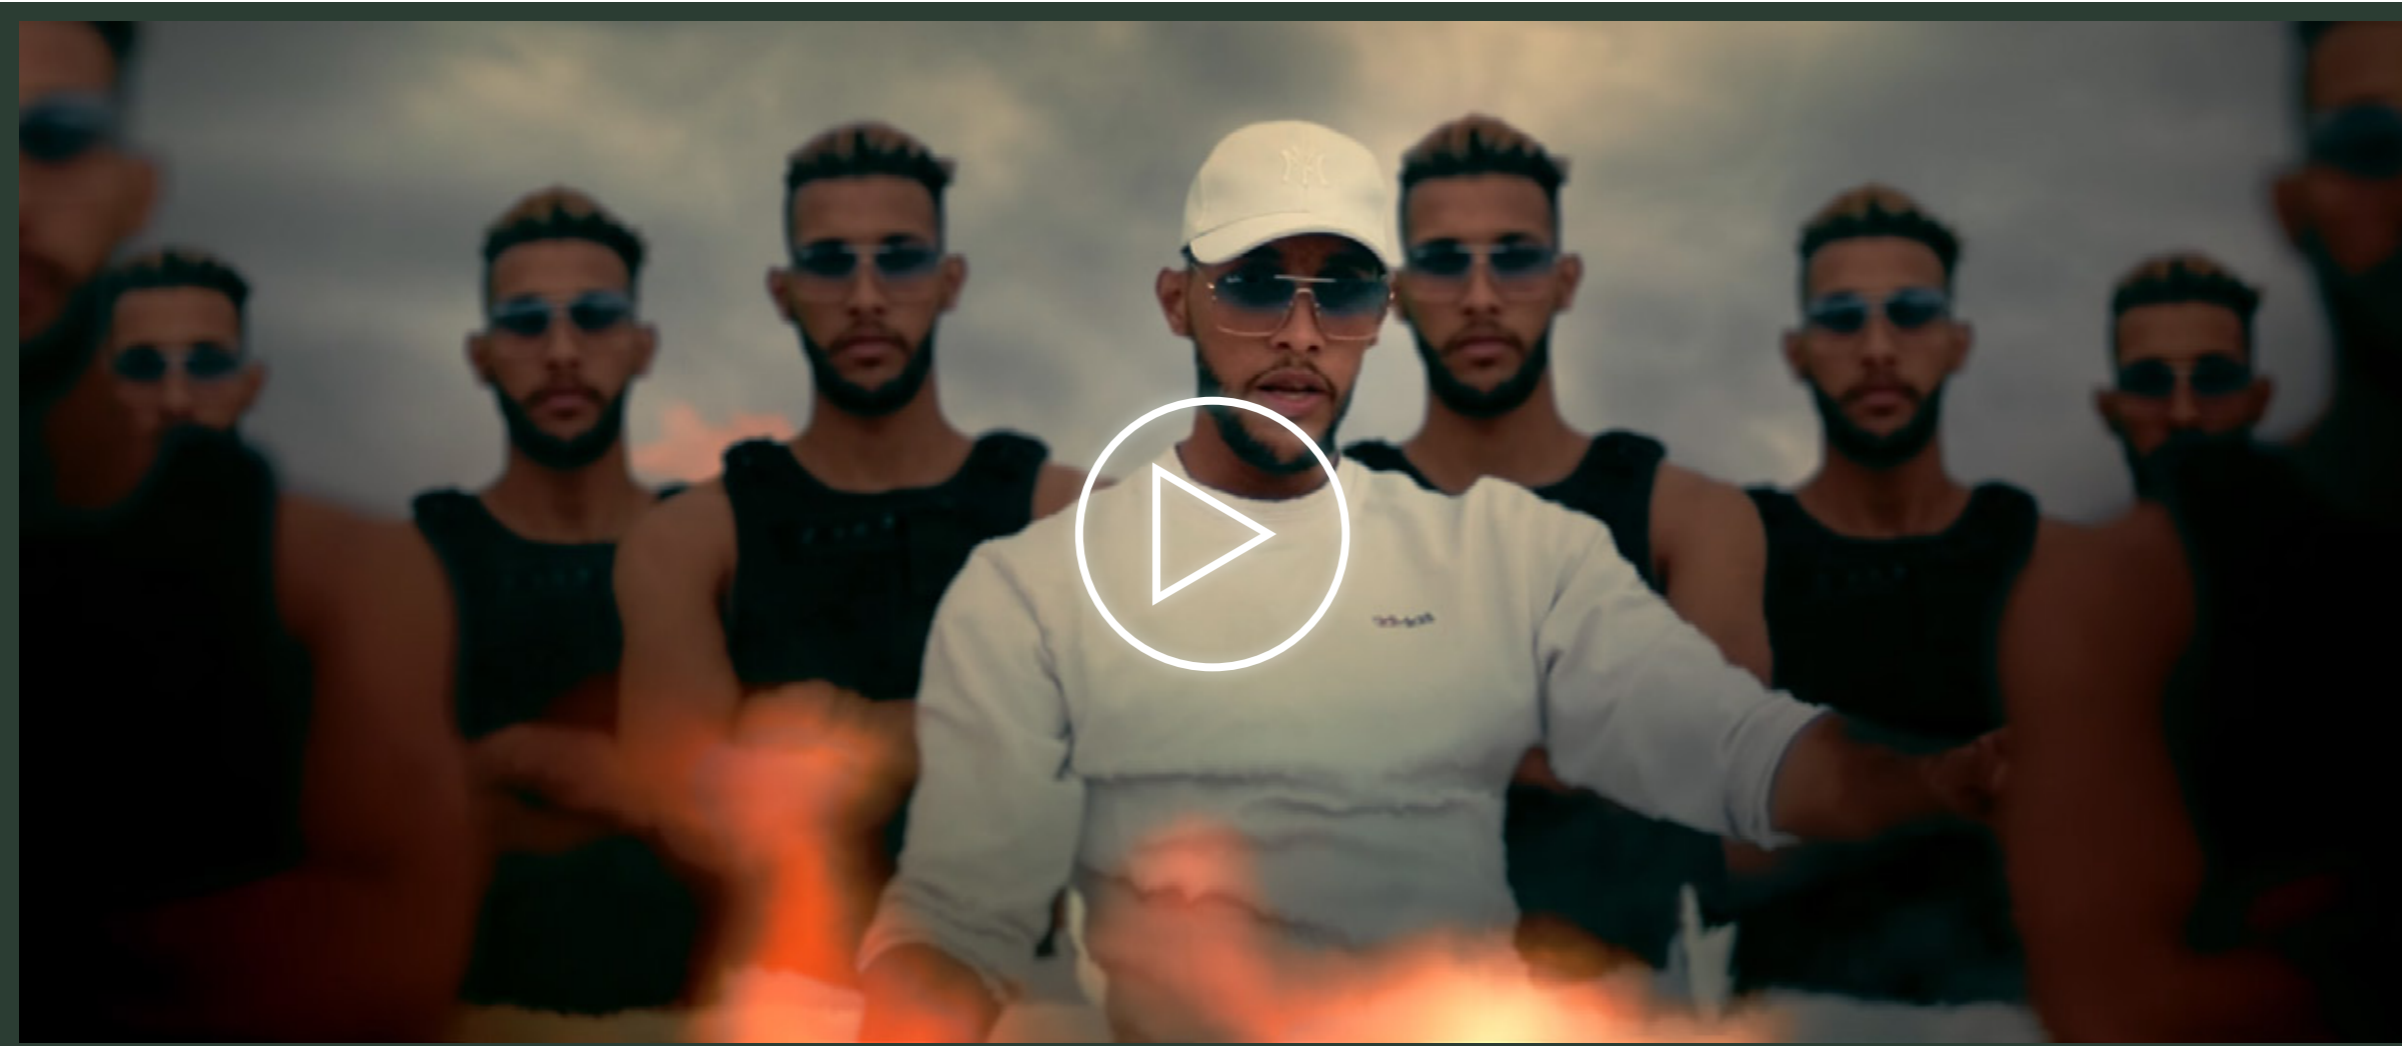

This was a shot from a music video I directed. I added the fire, smoke and the moon using **Adobe After Effects**, and graded the clip later with **DaVinci Resolve Studio**

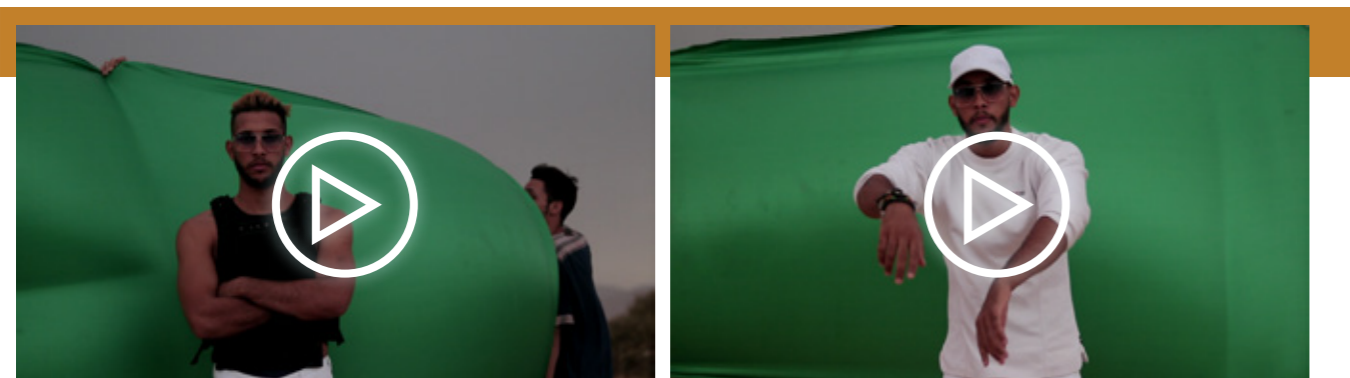

PROJECT Link

<https://www.youtube.com/watch?v=GdQuGRq8IWQ>

In this **Adobe After Effects** composition, I used a green screen to change the background and create this clone effect.

PROJECT Link

<https://www.youtube.com/watch?v=GdQuGRq8IWQ>

In this **Adobe After Effects** composition, I used a green screen to change the background and replace it with a 3D rendered space
